Reports, Statistics, and Outcomes

Annual Report

In order to ensure that CIPE's resources and opportunities are meeting our goals and reaching as many students as possible, we collect data about our students' experiences in the U.S. and abroad, both during the summer and the academic year. In tracking our students' experiences, we are able to notice and respond to trends or needs that arise from year to year.

Assessment Survey Report

While we work hard to ensure that our opportunities and resources align with our goals and vision for CIPE, we also ask that students set clear goals for themselves and we carefully analyze their self-assessments, in hopes of improving our advising conversations, pre-departure preparation for students, programs, and our online resources.
